

CHILDREN'S PEDIATRICS

Foster Care and Adoption Clinic

Caring for a foster or adoptive child comes with a unique set of challenges. Children's Hospital offers specialized services and experienced providers dedicated to caring for adopted/foster care children and their families.

Care offered through the Foster Care and Adoption Clinic:

- Physical exams and developmental screenings
- Pediatric primary care - wellness and sick visits
- Vaccinations
- Nutrition support
- Care coordination with all specialists including behavioral care
