

Extraordinary care, just for kids!

Children's Hospital
New Orleans
LCMC Health

At Children's Hospital New Orleans, our promise is to shape a better future for kids. For more than 60 years, we've provided expert healthcare for children across our state and region, as the only free-standing children's hospital in Louisiana. Today, we provide unmatched pediatric expertise wrapped in a whole lot of love.

John R. Nickens IV
President &
Chief Executive Officer
Children's Hospital
New Orleans

Our community can count on the extraordinary care provided by the pediatric-trained experts at Children's Hospital, from the most complex pediatric procedures, to the everyday health of children and adolescents. From our main campus in Uptown New Orleans, to satellite locations in Baton Rouge, Covington, Lafayette, and Metairie, 14 pediatric primary care locations, and two after-hours clinics, we're working to ensure that families across our state and region have access to specialized pediatric healthcare close to home. Last year, Children's Hospital cared for children from all 64 parishes in Louisiana, 43 states, and nine countries!

Children's Hospital is proud to be the only pediatric facility in the state of Louisiana to incorporate two academic pediatric medical programs under one roof. Through partnerships with LSU Health New Orleans and Tulane University School of Medicine, the vibrant academic medical community at Children's Hospital provides unparalleled opportunities for educational enhancement, innovation, and improved access to high quality pediatric healthcare.

"As the hospital for kids in Louisiana, Children's Hospital New Orleans is dedicated to creating a healthier tomorrow for children in a healing, family-centered environment that allows kids to be kids. We are innovating healthcare for kids now and into the future, creating one high standard of care that is delivered by our extraordinary staff and providers."

Our unique history and growth

1955

Crippled Children's Hospital founded in New Orleans as a 53-bed rehabilitation facility for children during the polio epidemic.

19--1951-1119

2009

LCMC Health is formed from Children's Hospital, making it one of the only health systems in the country founded by a free-standing children's hospital. LCMC Health partners with Touro Infirmary.

2017

Children's Hospital announces \$300 million dollar expansion project

Our locations

Outpatient appointments with pediatric specialists are offered at the Ambulatory Care Center on Children's Hospital's main campus, as well at our satellite locations throughout Louisiana. Children's Hospital offers specialty care at clinics in Metairie, on the Northshore, in Baton Rouge, and in Lafayette.

In addition to these satellite locations, our specialists see patients in Alexandria, Houma, Lake Charles, Monroe, Slidell, Thibodaux, and Gulfport, Mississippi.

Pediatric Primary Care

On healthy days and sick days—and for any health needs in between—the pediatricians at Children's Hospital New Orleans are here for you and your family. With 14 locations throughout Southeast Louisiana, our pediatric primary care providers are dedicated to caring for children from birth through adolescence, serving more than 150,000 children every year.

Building our future

Children's Hospital New Orleans is making a significant investment in the future of pediatric healthcare with a \$300 million transformation project currently underway, expanding the hospital's footprint by 235,000 square feet. This transformation will allow us to deliver the most advanced care possible, with innovative approaches to both care delivery and academics. The project includes a new medical tower with expanded cancer, emergency, cardiac intensive care, and surgical centers, along with a free-standing behavioral health hospital. The project is designed with the patient and family at the center,

with a new registration pavilion, 600-car parking garage and skybridge, family housing, improved dining, and a dedicated child-life center.

Community support

Children's Hospital understands that transforming care for children happens beyond the walls of our hospital and clinics. Each year, we invest over \$8 million in community programs, including:

- The Aubrey Hepburn CARE Center
- Limited Intervention Psychology Program
- Autism Center
- The Parenting Center
- Ventilator-Assisted Care Program
- Cochlear Implant Program
- Immunization Program
- Miracle League
- Hogs House family housing
